ABOUT MYSELF

Aspiring Cloud & DevOps Engineer pursuing a Bachelor of Computer Applications (BCA), with hands-on exposure to AWS cloud services, serverless application development, and Git-based CI/CD pipelines. Passionate about building scalable cloud solutions and automating infrastructure. Continuously working to strengthen technical skills while contributing to innovative, technology-driven projects.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, IAM, Lambda, API Gateway, DynamoDB, RDS, CloudFront)
DevOps: Git, GitHub, GitHub Actions, Docker, Jenkins, Terraform, CI/CD
Programming & Web Technologies: Java, Python (Basic), PHP, VB.NET, HTML5, CSS3, JavaScript
Database: MySQL, DynamoDB
Operating Systems: Linux, Ubuntu

EDUCATION

- Bachelor of Computer Applications (BCA) Sri Krishna Arts and Science College, Coimbatore
2024 – 2027 | CGPA: 8.9
- Higher Secondary Certificate (HSC) PMG Matric Higher Secondary School
2023 – 2024 | Percentage: 94.5%

INTERNSHIP

Cloud & DevOps Intern, LizTech, Coimbatore

20 April 2026 - 20 May 2026

- Completed a hands-on internship focused on AWS cloud technologies, gaining practical exposure to real-world cloud infrastructure and deployment processes.
- Designed and implemented a serverless file storage solution utilizing core AWS services for scalable data management.
- Automated infrastructure provisioning and maintained version control workflows using Git, improving deployment consistency.

PROJECTS

1. Hands of Dignity Portal – Assistive Device Donation Platform

- Developed a web-based donation management platform with HTML5, CSS3, JavaScript, PHP, and MySQL, featuring secure authentication and role-based access.
- Configured device request, approval, and database integration processes to simplify the donation workflow and improve usability.

2.CI/CD Pipeline for Automated Python Application Deployment using Terraform on AWS

- Designed and built an automated CI/CD pipeline with Git, Jenkins, and Terraform to speed up Python releases.
- Provisioned cloud infrastructure through Infrastructure as Code (IaC) with Terraform and deployed a Django app via Nginx and Gunicorn for reliable hosting.

3.CloudVault – Serverless Cloud Storage Platform

- Engineered a serverless cloud storage platform with AWS Lambda, Amazon S3, API Gateway, DynamoDB, and CloudFront, supporting file uploads up to 5 GB.
- Integrated database and backend APIs to enable scalable, efficient file retrieval.
- Streamlined release management through GitHub Actions and Git-based CI/CD pipelines for faster code integration.
- Created a responsive user interface with HTML5, CSS3, and JavaScript to deliver a seamless experience

CERTIFICATIONS

- AWS Cloud Practitioner - Coursera
- DevOps on AWS - Coursera
- AWS and DevOps Certification - IIE Institute (ISO Verified)
- Generative AI Professional - Oracle
